**CHAIN & CABLE LUBRICANT**

**Fortified with Moly**

CHAIN & CABLE is an aerosol chain and cable lubricant formulated as a penetrating foam containing Moly that works its way to the core of the wire rope or cable, where there is the greatest amount of stress and wear. CHAIN & CABLE will not break down when exposed to high humidity, salt spray, or water. CHAIN & CABLE has molybdenum disulfide which adds extra wear resistance under extreme pressures and temperatures. It will not drip or sling off and is fortified with anticorrosion additives to prevent rusting. CHAIN & CABLE dries to a light film so that sand and dust are not attracted to the cable. CHAIN & CABLE does not contain any chlorinated solvent and is safe for personnel and the environment.

**DIRECTIONS:**
Shake well before using. Always hold can upside down and spray for two seconds after each use to prevent spray tip from clogging. Hold can 8 to 10 inches away from surface to be lubricated and spray liberally. Allow foam to penetrate and set up. For best results repeat periodically.

**TECHNICAL DATA:**

- **Appearance and Odor:** Thick Black Liquid, Petroleum Odor
- **Flash Point of Concentrate:** >222°F
- **Flammability:** Flammable Spray
- **Specific Gravity:** 0.865
- **Propellant:** Liquid Petroleum Gas
- **Spray Pattern:** Narrow Stream
- **NFPA Fire Rating:** Level 1 Aerosol

MATERIAL SAFETY DATA SHEET
COMPLIES WITH OSHA’S HAZARD COMMUNICATION STANDARD (29 CFR 1910.1200)

SECTION I - PRODUCT IDENTIFICATION
Product Name: Foaming Chain & Cable Lubricant
Product Number: 865
Product Type: AEROSOL
Supplier’s Name: Purity Chemicals, Inc.
Supplier’s Address: P.O. Box 188 Forrest Park, GA 30297
D.O.T. Hazard Class: CONSUMER COMMODITY - ORM-D
Formula: Proprietary
Date Prepared: 11/29/07
Emergency Phone: (800) 535-5053
Information Phone: (404) 363-0757
HMIS Rating (Based on Aerosol Conc.):
0-Minimal 1-Slight 2-Moderate
3-Severe 4-Extreme
HEALTH: 1 FIRE: 1 REACTIVITY: 0
Personal Protection: B

SECTION III - PHYSICAL DATA

Data Below Based On Aerosol Concentrate Only:
Boiling Point: > 220°F
PH: N/A
Solubility In Water: Insoluble
Appearance/Odor: Thick Black Liquid, Petroleum Odor
Data Below Based On Total Contents:
Vapor Pressure of can (psig @70°F): 45
Total VOC %: 42.21%
Vapor Density(Air=1): >1
Specific Gravity (H2O=1)@75°F: 0.865

SECTION IV - FIRE AND EXPLOSION DATA
Flash Point (of Concentrate Only): > 220°F (T.O.C.)
Extinguishing Media: Foam, CO2, Dry Media
Special Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing. Cool fire exposed containers to prevent rupturing.
Unusual Fire and Explosion Hazards: Exposure to temperature above 120°F may cause bursting.

SECTION V - REACTIVITY DATA
Stability: Material Stable.
Incompatibility: Avoid contact with strong oxidizing agents.
Hazardous Decomposition Products: Carbon Dioxide, Carbon Monoxide.

SECTION VI - STORAGE AND HANDLING
KEEP OUT OF REACH OF CHILDREN.
For Industrial and Institutional use only.
Store in a cool, dry area away from heat or open flame.
Do not store at temperatures above 120°F.
NFPA Code 30B Rating: Level 1 Aerosol.

SECTION VII - HEALTH AND FIRST AID

PRIMARY ROUTES OF ENTRY & EFFECTS OF OVER EXPOSURE:
Eyes: May cause slight irritation.
Skin: Frequent or prolonged contact may cause irritation.
Inhalation: Inhalation of mist can cause irritation of nasal and respiratory passages. Abusive or excessive inhalation may cause irritation to the upper respiratory tract, dizziness, nausea and other central nervous system effects.
Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause pulmonary injury.

FIRST AID PROCEDURES:
Eyes: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately.
Skin: Wash with soap and water. If irritation persists seek medical attention.
Inhalation: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.
Ingestion: Do not induce vomiting. Seek medical attention immediately.

SECTION VIII - SPECIAL PROTECTION DATA
Respiratory Protection: None needed for proper use in accordance with label directions.
Ventilation: Provide local exhaust to keep vapor concentrations of ingredients listed in Section II below acceptable limits.
Protective Gloves: Use chemical resistant gloves if hand contact will be made.
Eye Protection: Always wear safety glasses or chemical proof goggles when working with chemicals.

SECTION IX - SPILL OR LEAK PROTECTION
STEPS TO BE TAKEN IN CASE OF SPILL OR LEAK: Allow propellant to evaporate. Maintain local exhaust and adequate ventilation. No smoking. Keep sparks, heat sources and open flames away from spill or leak. Cover spills with absorbent material and sweep up. Wash area to prevent dripping. Dispose of used absorbent material in accordance with Federal, State and local laws.
WASTE DISPOSAL METHOD: Aerosol cans, when emptied and depressurized through normal use, pose no disposal hazard and should be recycled. Consult Federal, State and local authorities for approved procedures.
