**NO SWEAT**

**Pipe Insulation**

NO SWEAT is a special ultra high texture insulating pipe coating. It provides a “quilting” effect by trapping moving air in special air pockets created by the stipple texture. NO SWEAT dries to a clean, white, flexible and water resistant coating. NO SWEAT adheres to galvanized, black iron, steel, brass, copper and PVC piping preventing condensation and sweating of cold surfaces and piping.

**DIRECTIONS:**

First, remove loose dust and dirt by wiping surface gently with a dry rag or duster. Cover surfaces under area to be treated with newspaper or a drop cloth. Protect other areas with masking tape. Shake can vigorously until agitator ball rattles freely. Continue shaking for at least one minute. Shake occasionally during use. For proper adhesion, surface must be completely dry prior to application. Hold the can 8 to 10 inches from surface to be coated. Apply with a sweeping motion using several thin coats. Allow each coat to dry for several minutes before applying next coat. If coating runs, can is too close to surface.

**TECHNICAL DATA:**

- **Appearance and Odor:** White, Viscous Liquid, Solvent Odor
- **Flash Point of Concentrate:** 114°F
- **Flammability:** Extremely Flammable
- **Specific Gravity:** 1.358
- **Propellant:** Liquid Petroleum Gas
- **Spray Pattern:** Circular
- **NFPA Fire Rating:** Level 2 Aerosol

MATERIAL SAFETY DATA SHEET
COMPLIES WITH OSHA'S HAZARD COMMUNICATION STANDARD (29 CFR 1910.1200)

SECTION I - PRODUCT IDENTIFICATION
Product Name: No Sweat
Product Number: 770
Product Type: AEROSOL
Supplier's Name: Purity Chemicals, Inc.
Supplier's Address: 114 Southfield Pkwy., Suite 120, Forest Park GA 30207
D.O.T. Hazard Class: CONSUMER COMMODITY

SECTION II - INGREDIENTS

SECTION III - PHYSICAL DATA
Data Below Based On Aerosol Concentrate Only:
Boiling Point: ~ 160°F
pH: 9.5
Specific Gravity (H₂O=1): 1.358
Vapor Density (Air=1): >1
Appearance/Odor: Viscous White Liquid / Solvent
Total VOC %: ~ 74.5%

SECTION IV - FIRE AND EXPLOSION DATA
Flash Point (of Concentrate Only): ~ 114°F
Flammability (as per USA Flame Projection Test): Extremely-Flammable Spray
Extinguishing Media: Foam, CO₂, Dry Media
Special Fire Fighting Procedures: Wear self-contained breathing apparatus & protective clothing. Cool fire exposed containers to prevent rupturing.
Unusual Fire and Explosion Hazards: Exposure to temperature above 120°F may cause bursting.

SECTION V - REACTIVITY DATA
Stability: Material Stable.
Hazardous Polymerization: Will not Occur.
Incompatibility: Avoid contact with strong oxidizing agents.
Hazardous Decomposition Products: Carbon Dioxide, Carbon Tetrachloride decomposition of Chlorinated compounds may result in chlorine containing gases including, but not limited to, phosgene.

SECTION VI - STORAGE AND HANDLING
KEEP OUT OF REACH OF CHILDREN.
For Industrial and Institutional use only.
Store in a cool, dry area away from heat or open flame.
Do not store at temperatures above 120°F.
NFPA Code 308 Rating: Level 2 Aerosol

SECTION VII - HEALTH AND FIRST AID
PRIMARY ROUTES OF ENTRY & EFFECTS OF OVEREXPOSURE:
Eyes: May cause mild irritation including redness, burning and tearing.
Skin: Frequent or prolonged contact may cause irritation.
Inhalation: Inhalation of mist can cause irritation of nasal and respiratory passages. Abusive or excessive inhalation may cause irritation to the upper respiratory tract, dizziness, nausea and other central nervous system effects.
Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause chemical pneumonitis.
FIRST AID PROCEDURES:
Eyes: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately.
Skin: Wash with soap and water. If irritation persists seek medical attention.
Inhalation: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.
Ingestion: Do not induce vomiting. Seek medical attention immediately.

SECTION VIII - SPECIAL PROTECTION DATA
Respiratory Protection: None needed for proper use in accordance with label directions.
Ventilation: Provide local exhaust to keep TLV of Section II Ingredients below acceptable limits.
Protective Gloves: None needed for proper use in accordance with label directions. Use chemical resistant gloves if hand contact is anticipated.
Eye Protection: None needed unless it is anticipated that a splash or spray back will occur, then wear safety glasses or chemical proof goggles.

SECTION IX - SPILL OR LEAK PROTECTION
STEPS TO BE TAKEN IN CASE OF SPILL OR LEAK: Allow solvents to evaporate. Maintain local exhaust and adequate ventilation. No smoking. Keep sparks, heat sources and open flame far away from spill or leak. Cover with absorbent material and sweep up. Wash area to prevent slipping. Dispose of soaked absorbent material in accordance with Federal, State, and local laws.
WASTE DISPOSAL METHOD: Aerosol cans, when emptied and decaffeinated through normal use, pose no disposal hazard and should be recycled. Consult Federal, State and local authorities for approved procedures.
