RUST EXTERMINATOR

RUST CONVERTER

RUST EXTERMINATOR is a one step rust converter and corrosion neutralizing spray that leaves a tough, long term, rust preventative coating. RUST EXTERMINATOR chemically neutralizes rust on metal surfaces while sealing, protecting, and prolonging the life of ferrous metal. It converts rust to a black protective finish.

RUST EXTERMINATOR may be painted over after allowing to cure. It is safe and easy to use.

SURFACES must be clean, dry and free of grease, dirt and oil. Remove loose rust and paint with coarse sandpaper or a wire brush. Before using, shake can until ball rattles freely for at least one minute. Hold the can 8 to 10 inches from the surface, spray a thin, even coating on the rusted metal. Avoid over application, sagging, and dripping. A second application is advised only after allowing for complete drying of initial coat. Final coat will dry to a black finish. May be painted after curing for approximately six hours.

SECTION VII · HEALTH AND FIRST AID

PRIMARY ROUTES OF ENTRY & EFFECTS OF OVER EXPOSURE:
Eyes: May cause slight irritation but does not injure eye tissue.
Skin: Frequent or prolonged contact may cause irritation.
Inhalation: Inhalation of mist can cause irritation of nasal and respiratory passages. Abusive or excessive inhalation may cause irritation to the upper respiratory tract, dizziness, nausea and other central nervous system effects.
Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause chemical pneumonitis.

FIRST AID PROCEDURES:
Eyes: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately.
Skin: Wash with soap and water. If irritation persists seek medical attention.
Inhalation: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.
Ingestion: Do not induce vomiting. Seek medical attention immediately.

SECTION VIII · SPECIAL PROTECTION DATA

Respiratory Protection: None needed for proper use in accordance with label directions.
Ventilation: Provide local exhaust to keep air concentrations of ingredients listed in Section II below established exposure limits.
Protective Gloves: Use chemical resistant gloves to help prevent skin contact.
Eye Protection: Always wear safety glasses or chemical proof goggles when working with chemicals.

SECTION IX · SPILL OR LEAK PROTECTION

STEPS TO BE TAKEN IN CASE OF SPILL OR LEAK:
Allow propellant to evaporate. Maintain local exhaust and adequate ventilation. No smoking. Keep sparks, heat sources and open flame far away from spill or leak. Wash area to prevent slipping. Dispose of soaked absorbent material in accordance with Federal, State and local laws.

WASTE DISPOSAL METHOD: Aerosol cans, when emptied and depressurized through normal use, pose no disposal hazard and should be recycled. Consult Federal, State and local authorities for approved procedures.
