TRIPLE PLAY

FLYING AND CRAWLING INSECTICIDE

TRIPLE PLAY flying and crawling insecticide is a powerful combination of broad-spectrum insecticides designed to kill both flying and crawling insects directly on contact. TRIPLE PLAY features a potent residual type insecticide that provides up to 6 weeks of control for crawling insects. TRIPLE PLAY unique aerosol valve system delivers both fan spray for flying insects and stream spray for crawling insect control. This is a multi-use product that features a spray that has powerful killing action, low odor and is non-staining and non-chlorinated.

FEATURE-BENEFIT:

Dual Spray Valve

Residual Kill of Crawling Insects for up to six weeks.

Jet Stream application for crawling insects

Fan Spray for Flying Insects

No Chlorinated Solvents

DIRECTIONS:

Indoor Use for residual contact: Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. Flying Insects: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room, moving toward the door. Direct spray to all parts of the room, especially windows and other light sources which attract insects. Leave area and keep closed for 15 minutes. Ventilate room thoroughly before re-entry.

TECHNICAL DATA:

Appearance: Yellowish Liquid
Odor: Insecticide Odor
Flash Point: None to Boiling (210°F)
Specific Gravity: 0.975
Propellant: Liquid Petroleum Gas
Spray Pattern: Pinpoint or Mist
NFPA Fire Rating: Level 1 Aerosol

SECTION III - PHYSICAL DATA
Data Below Based On Aerosol Concentrate Only:
- Boiling Point (°F): 210°F
- pH: 7
- Solubility in Water: Complete
- Appearance/Odor: Yellowish Liquid, Insecticide Odor
- Data Below Based On Total Contents:
  - Vapor Pressure of can (psig @70°F): 55
  - Total VOC %: ~20.5%
- Vapor Density (Air=1): >1
- Specific Gravity (H2O=1) @75°F: 0.975

SECTION IV - FIRE AND EXPLOSION DATA
- Flash Point (of Concentrate Only): None to Boiling (210°F)
- Flammability (as per USA Flame Projection Test): Non-Flammable Spray
- Extinguishing Media: Foam, CO2, Dry Media
- Special Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing. Cool fire exposed containers to prevent rupturing.
- Unusual Fire and Explosion Hazards: Exposure to temperature above 120°F may cause bursting.

SECTION V - REACTIVITY DATA
- Incompatibility: Avoid contact with strong oxidizing agents.
- Hazardous Decomposition Products: Carbon Dioxide, Carbon Monoxide.

SECTION VI - STORAGE AND HANDLING
- Keep Out of Reach of Children.
  - For Industrial and Institutional use only.
  - Store in a cool, dry area away from heat or open flame.
  - Do not store at temperatures above 120°F.
  - Avoid contact with eyes, skin, or clothing.
  - Contents under pressure.
  - Do not puncture or incinerate container.
  - NFPA Code 30B Rating: Level 1 Aerosol.

SECTION VII - HEALTH AND FIRST AID
- PRIMARY ROUTES OF ENTRY & EFFECTS OF OVER EXPOSURE:
  - Eyes: May cause slight irritation but does not injure eye tissue.
  - Skin: Frequent or prolonged contact may cause irritation.
  - Inhalation: Harmful if inhaled. Inhalation of mist can cause irritation of nasal and respiratory passages. Abusive or excessive inhalation may cause irritation to the upper respiratory tract, dizziness, nausea and other central nervous system effects.
  - Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause chemical pneumonitis.
- FIRST AID PROCEDURES:
  - Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.
  - Skin: Take off any contaminated clothing. Rinse immediately with plenty of water for 15-20 minutes. If irritation persists, call a poison control center or doctor for treatment advice.
  - Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
  - Ingestion: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless instructed to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

SECTION VIII - SPECIAL PROTECTION DATA
- Respiratory Protection: None needed for proper use in accordance with label directions.
- Ventilation: Provide local exhaust to keep TLV of Section II ingredients below acceptable limits.
- Protective Gloves: None needed for proper use in accordance with label directions. Use chemical resistant gloves if hand contact will be made.
- Eye Protection: None needed unless it is anticipated that a splash or spray back will occur, then wear safety glasses or chemical proof goggles.

SECTION IX - SPILL OR LEAK PROTECTION
- STEPS TO BE TAKEN IN CASE OF SPILL OR LEAK: Allow propellant to evaporate. Maintain local exhaust and adequate ventilation. No smoking. Keep sparks, heat sources and open flame far away from spill or leak. Cover with absorbent material and sweep up. Wash area to prevent slipping. Dispose of soaked absorbent material in accordance with Federal, State and local laws.
- WASTE DISPOSAL METHOD: Aerosol cans, when emptied and depressurized through normal use, pose no disposal hazard and should be recycled. Consult Federal, State and local authorities for approved procedures.
